Anchor Capital Mauritius strengthens wealth offering as group oversees US\$19.4 billion in assets

Anchor Capital Mauritius (ACM), a member of Mauritius Finance is expanding beyond its established investment administration business to offer comprehensive wealth management and financial advisory services, marking a major strategic milestone as it celebrates ten years of operations in Mauritius. The expansion forms part of the group's broader growth strategy following its merger with London-based boutique wealth manager Credo in 2024. The combined entity now oversees approximately US\$19.4 billion in assets under management and advice, with a presence across Southern Africa, Mauritius and the United Kingdom.

Anchor Capital Mauritius strengthens wealth offering as group oversees US\$19.4 billion in assets

Having built a strong investment administration platform since establishing its Mauritian presence in 2015, ACM is now broadening its offering to include financial advice, investment planning, portfolio management, retirement and succession planning, as well as offshore trust structuring. Designed to serve both Mauritian residents and the island's growing expatriate community through an integrated wealth management platform, the expansion is supported by the recruitment of experienced local professionals and the relocation of the company to new offices at The Strand in Beau Plan.

A Word from Peter Armitage, CEO of Anchor Capital :

“As we celebrate 10 years of Anchor Capital in Mauritius, we remain committed to offering investors a truly differentiated Anchor experience. Our client-centric approach combines personalised service from dedicated portfolio managers, rigorous local and global investment research, and an open, interactive relationship with our clients.”

The expansion will be led by newly appointed Managing Director Jim Millar, a seasoned financial advice professional. The move comes as Mauritius continues to reinforce its position as a regional financial services hub, attracting international investors and globally mobile professionals seeking cross-border wealth management solutions.

Anchor Group at a Glance

Anchor Group is an asset and wealth management business, with a separate institutional stockbroking business. The majority of group assets are managed by the Anchor Capital business, with various partially owned partner businesses providing financial advice and other financial services.
